DETAILED ACTION

Election/Restrictions

1. Applicant's election of Species B, Claims 11-14 in the reply filed on 4/12/2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Specification

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

3. The following title is suggested: METHOD FOR AN ORIGIN DETECTION MOUNTIN HEAD COMPONENT.

Claim Objections

4. Claim 11 objected to because of the following informalities:

In claim 11, after the phrase "section in a position where the" (line 51), the term -- lowered --, should be inserted.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 11, the phrase "the axis of rotation" (lines 15-16) is confusing and unclear if this referring to the previous recitation of the axis of rotation of the shaft sections (lines 9-10) or the axis of rotation of the ball screw section (line 12).

Also, the phrase "origin elevation" (line 48) is unclear if this is referring to the previous recitation of "an origin of elevation" (line 39). How many origin elevations are there?

Allowable Subject Matter

6. Claims 11-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tai Van Nguyen whose telephone number is 571-272-4567. The examiner can normally be reached on M-F (7:30 A.M - 4:30 P.M).
